- [Now is the time: Nextcloud supports Eurostack's open letter calling for technological sovereignty](#) (2025/03/18 09:32)
  Today, the need for a sovereign European technology stack is more urgent than ever. It is the only way for Europe to make itself more independent from political and economic blackmail – a scenario that seems more and more threatening. In an open letter to the President of the European Commission, Ursula von der Leyen, […] The post Now is the time: Nextcloud supports Eurostack's open letter calling for technological sovereignty appeared first on Nextcloud.

- [The Draghi report: How Europe can become fit for a competitive digital future](#) (2025/01/27 09:45)
  Europe faces significant challenges in staying competitive in a rapidly evolving digital world dominated by the US and China. The Draghi report sheds light on the EU's dependence on foreign technology, the need for innovation, and actionable strategies for building a resilient digital economy. In this post, we explore the report's key insights, highlight the pressing issues, and discuss what they mean for the tech industry and Europe's digital future. The post The Draghi report: How Europe can become fit for a competitive digital future appeared first on Nextcloud.
- [Trump's second term: A critical turning point for open source and digital sovereignty?](#) (2025/01/23 14:32)
  Donald Trump's return to the White House has reignited debates about the balance of power in the tech industry. With legislations like the CLOUD Act and ongoing discussions around data sovereignty, open source faces significant challenges. These dynamics highlight the difficulty of navigating a world where global collaboration increasingly intersects with regional priorities. The post Trump's second term: A critical turning point for open source and digital sovereignty? appeared first on Nextcloud.
