Increases the system consistency

TROM-Jaro aims toward ideal and future goals rather than immediate ones.

It presents in the Speed Dial page, from the preinstalled Firefox web browser, other trade-free projects like TROM documentary, books, videos and tools.

From the free tools you can find on TROMsite.com it worth mentioning the curated news page, the VideoNeat.com website with a huge collection of free educational documentaries and movies, as well as the MusikWave.com website and the application with the same name that can be installed on TROM-jaro.
