System Requirements

Minimum

Although many distributions will list the bare minimum specifications necessary to run, it wouldn't be a particularly fun or useful experience to actually use them! As such, it is recommended to have at least:

```
2 GB (gigabyte) of memory
30 GB (gigabytes) of hard disk space
1 Ghz (gigahertz) dual-core processor
a graphics card and a monitor
keyboard and mouse
internet connection
```

Recommended

Recommended rather than minimum system requirements have been provided in order to ensure that you get the most out of your TROM-Jaro system:

```
4 GB (gigabyte) of memory
1 TB (terabyte) of hard disk space
2 Ghz (gigahertz) dual-core processor
HD (high definition) graphics card
full HD monitor with touchscreen and webcam
all-in-one printer, scanner, copier
joystick for gaming
headphones / audio speakers system
broadband internet connection
```
